

Emergency 911 Information Sheet

Division of IT

(573) 882-2000

<http://doit.missouri.edu>

Only use this form when you have a medical condition or special circumstance which would be important for emergency personnel to know about when responding to a 911 call from your room or office.

In cooperation with Boone County and City of Columbia fire, law enforcement, and emergency medical officials, CenturyTel has installed an "Enhanced 911" Emergency Calling System throughout Boone County. When you dial 911 to request help, this system provides for faster police, fire and ambulance service response. The MU Police Department also monitors 911 calls and responds to campus emergencies. The system displays your telephone number and 911 address to the dispatcher so your location will be identified even if you cannot speak.

If you have a medical condition or special circumstance which would be important for emergency personnel to know about when responding to a 911 call from your office or room, please take a moment to fill in the blanks below. **The first five items are required.** To mail the form, fold it and tape it (do not use staples), and drop it in campus mail. The form will be sent to the Joint Communications and Information Center where the information will be accessible to local emergency personnel.

Note: It is absolutely vital that you send an update form every time you move. New forms can be obtained from the Division of IT Web site – <http://doit.missouri.edu>.
